Act 420: Inter- and Intradistrict Transfers

- Section G of [this law](#) (R.S. 17:4035.1) mandates that all school systems report data around student transfer requests, including the number of interdistrict and intradistrict transfer requests received, accepted, appealed, and denied.
- This is **not** just a law that pertains to school choice. All LEA's must report this information regarding transfer requests.

	Interdistrict Transfer Requests RECEIVED	Interdistrict Transfer Requests ACCEPTED	Interdistrict Transfer Requests APPEALED	Interdistrict Transfer Requests DENIED
All Students				
Economically Disadvantaged Students				
American Indian Students				
Asian Students				
Black Students

White Students				
Multiple Races				

Act 420: Inter and Intradistrict Transfers

- Each LEA is required to report the number of interdistrict and intradistrict transfer requests received, accepted, appealed, and denied during your system's transfer period, to the best of your knowledge. Your system's transfer period is determined by your LEA and would be found within any applicable local policies. Based on state guidelines, transfer periods must extend, at minimum, from March 1 to March 30, 2022, but may extend as late as July 30, 2022, depending on the LEA's local transfer policy.

In addition, data provided on transfer requests received, accepted, appealed and denied must be disaggregated by economically disadvantaged status as well as race and ethnicity.

Transfer Requests: Definition

- A transfer request, for purposes of this law, is any request to change public schools that is initiated during an LEA's transfer request period.
- The LEA who would be receiving the student will be the LEA who would report the transfer request.

Interdistrict Transfer Requests

- **Interdistrict transfer requests** are requests for students to transfer into your public school LEA from another public school LEA during your system's transfer period.
- **Examples** of interdistrict transfer requests would include a student who requests to transfer from one traditional public school district to another traditional public school district, or a student who transfers from one Type 2 charter to a school within a traditional district, or a student who transfers from one Type 2 charter school to another Type 2 charter school.
- **Exceptions:**
 - A student who moves from a school in another state and requests enrollment during the transfer period
 - A student who moves from a nonpublic school in Louisiana or a home study program and requests enrollment during the transfer period

Intradistrict Transfer Requests

- Intradistrict transfers are those where students transfer from one school to another within the same LEA during your system's transfer period. Examples of an intradistrict transfer would include a student who transfers from one school to another within the same public school system.
- Exceptions:
 - Note that when a student requests to change schools due to terminal enrollment, this is not considered a transfer request. For example, a student that completes 5th grade at a K-5 school and then moves to 6th grade at another school is not considered a transfer.
 - When a student moves, and a student enrolls in a new school based on his or her new address, this is not considered a transfer request

Transfer Request Denials

- All transfer request denials should be reported in the Jotform, including denials made because there is lack of capacity at the receiving site.
- Exception: Schools with selective admissions who deny a transfer request due to selective admission criteria are not required to report these as denials
